

# STARTER Volunteers: You're the hero & you can learn this in seconds!

*There is a problem today: Every piece of paper on deck at your swim meet adds time and stress to timers. No more!*

## STARTER

**Never worry about timers paying attention again!** YOU start the clock on EVERY timers' device at the same time. A synchronized start!

**Run your fastest swim meet ever!** Because your device control's every timer's device, cut-out ALL dead time. Start the next race as soon as the previous race is over--never hear a timer say, "Wait! I'm not ready" ever again!

**False start & reset every timer's device with a tap.** Restart the race when you're ready and

**See the event order for your meet at your fingertips.** Skip any event, combine any event, or move back to a previous event. Storm delay? Pick up right where you left off.

**Getting timers to volunteer is easy.** Any timer can download the app for free on an iOS or Android device.

**Run a test heat before the meet starts.** New timers helping out? 'Test Event' is always at your disposal before Event 1. Timers will learn in seconds.
