

TIMER Volunteers: You're the hero, any volunteer can learn this in seconds!

But there is a problem: Every piece of paper on deck at your swim meet adds time and stress to timers. No more!

TIMER

Timers & Judges Meeting. Created specifically for parents that are new to swimming and have never timed. Download the app for free.

Learn to use right on the pool deck. Run "Test Event" before Event 1 until each volunteer is comfortable!

Preparing for the first race is easy. Timers take their place and NEVER have to start their clock for any race again.

Stop your clock and enter athlete's Swimmer ID. That's it. Swimmer IDs are on each athlete's arm. The app handles any empty lanes that are filled or combined events/heats with NO additional work.

No more "Wait! Wait! Wait! I'm not ready!" Each timer's clock is always in sync with the meet. The app cuts out writing down each result and having to reset and start your clock for every single race. The Starter resets and synchronizes your clock with the current race in the water once you're done with the previous race.

Compatible on iOS and Android. iPods, iPhones, iPads, Droids. You have the device you need to volunteer right in your pocket!

Compare Meet Central™ Timer to stopwatches & clipboards

Feature	Meet Central™	Paper System
Never have to reset or start your watch again	✓	✗
Heads-up display of current event/heat in the water	✓	✗
Available on each volunteer's iOS or Android for free	✓	✗
Fill empty lanes & combine heats/events instantly	✓	✗
Both timers' clocks in each lane averaged automatically	✓	✗
Eliminate the need for runners. Forever.	✓	✗
Manage runners & wet paper slips	✗	✓

If you're still running a paper swim meet, Meet Central™ is for you. No touchpads required. Buy today!
